Office Action Summary

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-7, 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Edison.

Edison discloses in figures 1-3 a safety shield comprising a rigid planar member 16, a notched support (28, the chain has notches (the openings in the chain) therein), a cross member 12 and a locking means 40.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Edison in view of Ricketts. Edison discloses in figures 1-3 a safety shield, substantially as claimed, that further comprises a handle 64. However, Edison does not disclose the shield being made of stainless steel. It would have been obvious to one having ordinary skill in the art at the time that the art at the time that the invention was made that the safety shield disclosed by Edison could be made of stainless steel as taught by

Ricketts. The stainless steel is a durable material that would hold an animal in place, yet it will not rust over a period of time.

Allowable Subject Matter

Claims 2, 11-17 and 19-22 allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. No additional prior art was cited during the first office action.
